Dear Members and Stakeholders,

It gives me great pleasure to extend a very warm welcome to each and everyone of you to the 34th Annual General Meeting of your company. It is my privilege to present to you the 34th Annual report of your company. It gives me great pleasure to share that year FY 2018-19 has been remarkable year for our company. The company portfolio comprises business loans, loans against property and fulfills working capital requirement among others of its individual, partnership firms, entrepreneurs, body corporate/business clients and other legal entities. During the Previous Year 2017-18, the loans were given for purchase of E-Rickshaw, Personal Loans, Business Loan, SME Loan, Two-Wheeler Loan, Loan against Property. During the Financial Year 2018-19, E-rickshaw financing has become a major contributor to the revenue of the Company. Our performance during the year was quite encouraging. Some of the major milestones achieved are:

- Revenue from our lending operations increased from 383.76 lakhs in FY 2017-18 to 427.85 lakhs in FY 2018-19
- PBT increased by 58.82 lakhs from 175.37 lakhs in FY 2017-18 to 234.19 lakhs in FY 2018-19

The government has done lot of structural reforms during last two years which had lot of impact on the way businesses were done especially in the SME Sector. Demonetisation, GST implementation and formalisation of the economy has far reaching impact on our economy. This has created both unforeseen challenges and opportunities for the NBFC's. NBFC's are gaining market share both in retail and corporate lending. FY 2018-19 was good year for NBFC's. The stress on the banking sector due to higher NPAs continues to hinder lending at the PSU's Banks. This has created new opportunities for the NBFCs to grow. On the flip side NBFCs faced challenges in terms of borrowing from banks, with increased caution in the sector and their limited ability to fund additional loans. Overall business scenario remained encouraging for the industry.

The banking sector is facing serious problems of bad assets and high NPAs. We are acutely aware of the risks in the system and we are building our lending book with a focused approach of reducing our risks and serving our customers by reducing our turnaround times. We look for early warning signals that help us initiate appropriate actions. As a company, Capital Trade Links Limited shall continue its endeavour to keep its credit costs low by choosing customers selectively, close monitoring of customers financials and high standards in underwriting.

We are continuously adding talent to our company. Human resource is the most critical part of any organization and especially for a small company like ours. It is important to have a motivated team, whose goals are aligned towards the long term success of the company. We have taken a lot of HR initiatives to provide encouraging environment for individuals to learn and grow. A formal HR department has been built and we are working towards achieving these goals by implementing a human resources management solution.

I would like to thank our employees for their relentless efforts in growth of the company. I also express my gratitude towards our shareholders and lenders who have shown faith in Capital Trade Links Limited and supported us in this journey.

Sincerely

Sd/-

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To

The Board of Directors

CAPITAL TRADE LINKS LIMITED

B - 4, LGF ASHOKA NIKETAN DELHI -110092

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s Capital Trade Links Limited (CIN: L51909DL1984PLC019622) (hereinafter called "the company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March 2019 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter

I have examined the books, papers, minute books, forms and returns filed and other records maintained by Company for the financial year ended on 31st March 2019 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERVIEW OF INDIAN ECONOMY

Outlook for Indian economy for financial year (FY 20) is positive. Favourable factors such as an increase in financial flows to the commercial sector, stabilisation of crude oil and other commodity prices, consumption and investment enhancing proposals in the Union Budget 2019-20, and the expectation of a normal monsoon are expected to boost economic activity. GDP growth is projected at 7.2% - in the range of 6.8% - 7.1% in H1:2019-20 and 7.3% - 7.4% in H2 with risks evenly balanced. Strong macro-economic fundamentals and recent shift in central banks focus from inflationary concerns to sustaining growth momentum will augur well for the healthy growth path of the economy. It is expected that RBI will continue its liquidity enhancing activities like open market operations (OMO), Swaps etc. leading to a softer interest regime.

RECENT DEVELOPMENTS IN THE ECONOMY OF INDIA

It is imperative to bear in mind that in order to tap the highest potential of the economy and ensure good governance, an optimal level of synergy is required between the central and state government. This will not only add strength to our cooperative federal structure but will also strengthen India's economy. Initiatives such as –

- Goods and Services Tax (GST)
- Insolvency and Bankruptcy Code (IBC)
- Startup India
- Digital India

These, among others, have helped the Indian economy jump 65 ranks (in the last four years) in the World Bank's Ease of Doing Business Report.

These measures cemented India's reputation as one of the few bright spots in an otherwise grim global economy. India is among the fastest growing major economies, underpinned by a stable macro - economy with declining inflation and improving fiscal and external balances. Not only that, it was also one of the few economies enacting major 'structural reforms', that have positioned India as a competitive player in the international market.

With the improvement in the economic scenario, there have been various investments in various sectors of the economy. The M&A activity in India reached record US\$ 129.4 billion in 2018 while private equity (PE) and venture capital (VC) investments reached US\$ 20.5 billion. Some of the important recent developments in Indian economy are as follows:

- During 2018-19 (up to February 2019), merchandise exports from India have increased 8.85 per cent year-on-year to US\$ 298.47 billion, while services exports have grown 8.54 per cent year-on-year to US\$ 185.51 billion.
- Nikkei India Manufacturing Purchasing Managers' Index (PMI) reached a 14-month high in February 2019 and stood at 54.3.
- Net direct tax collection for 2018-19 had crossed Rs 10 trillion (US\$ 144.57 billion) by March 16, 2019, while goods and services tax (GST) collection stood at Rs 10.70 trillion (US\$ 154.69 billion) as of February 2019.
- Proceeds through Initial Public Offers (IPO) in India reached US\$ 5.5 billion in 2018 and US\$ 0.9 billion in Q1 2018-19.
- India's Foreign Direct Investment (FDI) equity inflows reached US\$ 409.15 billion between April 2000 and December 2018, with maximum contribution from services, computer software and hardware, telecommunications, construction, trading and automobiles.
- India's Index of Industrial Production (IIP) rose 4.4 per cent year-on-year in 2018-19 (up to January 2019).
- Consumer Price Index (CPI) inflation stood at 2.57 per cent in February 2019.
- Net employment generation in the country reached a 17-month high in January 2019

MARKET SIZE

India's GDP is estimated to have increased 7.2 per cent in 2017-18 and 7 per cent in 2018-19. India has retained its position as the third largest startup base in the world with over 4,750 technology start-ups.

India's labour force is expected to touch 160-170 million by 2020, based on rate of population growth, increased labour force participation, and higher education enrolment, among other factors, according to a study by ASSOCHAM and Thought Arbitrage Research Institute.

India's foreign exchange reserves were US\$ 405.64 billion in the week up to March 15, 2019, according to data from the RBI.

The Mutual Fund (MF) industry in India has seen rapid growth in Assets Under Management (AUM). Total AUM of the industry stood at Rs 23.16 trillion (US\$ 321.00 billion) as of February 2019. At the same time the number of Mutual fund (MF) equity portfolios reached a high of 74.6 million as of June 2018.

Another crucial component of India's financial industry is the insurance industry. The insurance industry has been expanding at a fast pace. The total first year premium of life insurance companies reached Rs 159,004 crore (US\$ 22.04 billion) as of Jan 2019.

Along with the secondary market, the market for Initial Public Offers (IPOs) has also witnessed rapid expansion. The total amount of Initial Public Offerings (IPO) stood at Rs 14,032 crore (US\$ 1.94 billion) as of Feb 2019.

Furthermore, India's leading bourse Bombay Stock Exchange (BSE) will set up a joint venture with Ebix Inc to build a robust insurance distribution network in the country through a new distribution exchange platform

GOVERNMENT INITIATIVES

The interim Union Budget for 2019-20 was announced by Mr Piyush Goyal, Union Minister for Finance, Corporate Affairs, Railways and Coal, Government of India, in Parliament on February 01, 2019. It focuses on supporting the needy farmers, economically less privileged, workers in the unorganised sector and salaried employees, while continuing the Government of India's push towards better physical and social infrastructure.

Total expenditure for 2019-20 is budgeted at Rs 2,784,200 crore (US\$ 391.53 billion), an increase of 13.30 per cent from 2018-19 (revised estimates).

Numerous foreign companies are setting up their facilities in India on account of various government initiatives like Make in India and Digital India. Mr. Narendra Modi, Prime Minister of India, has launched the Make in India initiative with an aim to boost the manufacturing sector of Indian economy, to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development, in addition to benefiting investors. The Government of India, under the Make in India initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25 per cent of the GDP from the current 17 per cent. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Some of the recent initiatives and developments undertaken by the government are listed below:

- In February 2019, the Government of India approved the National Policy on Software Products – 2019, to develop the country as a software hub.
- The National Mineral Policy 2019, National Electronics Policy 2019 and Faster Adoption and Manufacturing of (Hybrid) and Electric Vehicles (FAME II) have also been approved by the Government of India in 2019.
- Village electrification in India was completed in April 2018. Universal household electrification is expected to be achieved by March 2019 end.
- The Government of India released the maiden Agriculture Export Policy, 2018 which seeks to double agricultural exports from the country to US\$ 60 billion by 2022.
- Around 1.29 million houses have been constructed up to December 24, 2018, under Government of India's housing scheme named Pradhan Mantri Awas Yojana (Urban).

- Prime Minister's Employment Generation Programme (PMEGP) will be continued with an outlay of Rs 5,500 crore (US\$ 755.36 million) for three years from 2017-18 to 2019-20, according to the Cabinet Committee on Economic Affairs (CCEA).

ROAD AHEAD

India's gross domestic product (GDP) is expected to reach US\$ 6 trillion by FY27 and achieve upper-middle income status on the back of digitisation, globalisation, favourable demographics, and reforms.

India's revenue receipts are estimated to touch Rs 28-30 trillion (US\$ 385-412 billion) by 2019, owing to Government of India's measures to strengthen infrastructure and reforms like demonetisation and Goods and Services Tax (GST).

India is also focusing on renewable sources to generate energy. It is planning to achieve 40 per cent of its energy from non-fossil sources by 2030 which is currently 30 per cent and also have plans to increase its renewable energy capacity from to 175 GW by 2022.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers.

FINANCIAL SERVICES SECTOR

India's financial services sector comprises of commercial banks/co-operative banks, non-banking financial companies, insurance companies, pension / mutual funds and other various entities. Scheduled Commercial Banks' credit growth on a year-on-year (y-o-y) basis improved across bank groups between March and September 2018, largely driven by the private sector banks (from 21.30% in March 2018 to 22.5% in September 2018). Private sector banks' deposit growth continued to be robust at 18.40%. The performance of the Public Sector Banks (PSBs) has witnessed an overall improvement with credit growth increasing from 5.90% in March 2018 to 9.10% in September 2018 and deposit growth increasing from 3.20% to 5.00% in the same period. While, Non-Prompt Corrective Action (NPCA) PSBs' credit growth improved from 9.10% in March 2018 to 13.60% in September 2018 and deposits increased from 6.10% to 7.90% in the same period, the PCA-PSBs registered negative growth in both credit and deposits. In order to develop and deepen the corporate bonds market, SEBI has recently issued a circular on fund raising by issuance of debt securities mandating the large corporates to raise 25% of their incremental borrowings from the financial year 2019- 20 onwards through corporate bond market. This will address concentration risk in the banking system

NBFC SECTOR

Approximately 10,000 NBFCs registered with Reserve Bank of India (RBI), of which 89 deposit accepting NBFC. The primary activities of NBFCs are providing consumer credit, including automobile finance, home finance and consumer durable products finance, wholesale finance products such as bills discounting for small and medium companies and infrastructure finance, and fee based services such as investment banking and underwriting. NBFCs have carved niche business areas for them within the financial sector space and are also popular for providing customized products. For instance, your Company providing finance for re-possessed vehicles at the doorstep of the customer. NBFCs bring the much needed diversity to the financial sector. NBFCs play an important role to promote financial inclusion agenda of the government by catering to the financial needs of people belonging to weaker section of the society.

The move is aimed at not only freeing up capital for banks for further lending but also slash borrowing costs for well-rated NBFCs, which have been grappling with a systemic liquidity crisis triggered by a series of defaults by a large prominent financial institution and its subsidiaries. In order to provide NBFCs with greater operational flexibility, the RBI has merged the categories of NBFCs classified as asset finance companies, investment companies and loan companies into a new category called NBFC - Investment and Credit Company ("NBFC-ICC")

"Non-bank financial companies (NBFCs) are likely to be impacted significantly if the liquidity situation triggered by Infrastructure Leasing & Financial Services (IL&FS), Dewan Housing Finance (DHFL) and Indiabulls Housing Finance Ltd, default, continues to remain tight. These Companies are facing liquidity crisis and has defaulted on debt repayment. This default has also impacted other NBFCs and also mutual fund players.

However, prolonged liquidity distress will significantly erode the NBFCs' credit standing, and prove negative for the broader economy and structured finance sector and liquidity tightness could lead to sharply higher financing costs for NBFCs, or even difficulty in rolling over their liabilities, because these companies have relied heavily on market borrowing to fund asset growth. Any effects on the NBFCs will spill over to the

broader economy mainly through the credit channel because NBFIs are a material provider of credit for the economy, with outstanding loans/GDP at end March 2018 registering 13 per cent versus banking system loans/GDP of 52 per cent. Consequently, a slowdown in credit growth provided by NBFIs will dampen overall consumption and economic growth.

The NBFIs' liquidity management practices suggests that these companies are capable of coping with multi-week liquidity distress, but a prolonged period of liquidity stress will severely weaken the NBFIs' credit standings and there will not be a significant impact on the credit quality of the country's structured finance sector, nor performance of asset-backed securities (ABS)."

Independent Auditors' Report

TO THE MEMBERS OF CAPITAL TRADE LINKS LIMITED

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of CAPITAL TRADE LINKS LIMITED ("the Company"), which comprise the balance sheet as at March 31, 2019, and the Statement of Profit and Loss and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit and cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the standards on auditing (SAs) specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the financial statements

The Company's board of directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these

financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding

independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraph 3 & 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d) in our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e) on the basis of the written representations received from the directors as on March 31, 2019, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019, from being appointed as a director in terms of Section 164(2) of the Act;
 - f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'; and
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i) the Company does not have any pending litigations which would impact its financial position in its financial statements;
 - ii) the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii) there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure B to the Independent Auditors' Report

Annexure B referred to in paragraph 2(f) under the heading 'Report on other legal and regulatory requirements' of our report of even date

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **CAPITAL TRADE LINKS LIMITED** ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper

management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the financial statements for the year ended March 31, 2019

1 Corporate Information

Capital Trade Links Limited ("the Company") incorporated as a public company under the provisions of the Companies Act, 1956. The Company is engaged into the business of Non-Banking Financial Institution (NBFI) without accepting public deposits. The Company is holding a valid Certificate of Registration (COR) from Reserve Bank of India (RBI).

2 Significant Accounting Policies

Basis of Accounting

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013, ("the 2013 Act"). The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

The Company also follows the directions prescribed by the Reserve Bank of India (RBI) for Non-Banking Financial Companies.

Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the Management to make judgments, estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reported period. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision in the accounting estimates is recognised prospectively in current and future periods.

Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest income on loans given is recognised on accrual basis, considering the directions issued by the Reserve Bank of India from time to time in terms of the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 1998. Loans are classified into 'Performing and Non-performing' assets in terms of the said directions.

Other interest income is recognised on a time proportion accrual basis taking into account the amount outstanding and the interest rate applicable.

Profit on sale of investments is recorded on transfer of title from the Company is determined as the difference between the sale price and carrying value of the investment. Dividend income is accounted when the right to receive is established.

Inventories

Items of inventories are measured at lower of cost and net realisable value. Cost of inventories comprises of cost of purchase and other costs. Net realisable value is the estimated selling price in the ordinary course of business, less estimated cost to make the sale.

Tangible and Intangible Assets, Depreciation and Amortisation

Tangible/Intangible assets have been stated at cost less accumulated depreciation/amortisation and net of impairments, if any. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets, which is as stated in Part C of Schedule II of the Companies Act, 2013. Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis. Depreciation for assets purchased/sold during a period is proportionately charged.

Impairment of Assets

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

Leases

Lease under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Such assets acquired are capitalised at fair value of the asset or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the Statement of Profit and Loss over the lease term.

Investments

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statement at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Cash and Cash Equivalents

Cash and cash equivalents in the cash flow comprise cash/cheques in hand and cash at bank. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Taxes on Income

Tax expense comprises of Current and Deferred tax. Current tax is measured at the amount expected to be paid in respect of taxable income for the year in accordance with the Indian Income tax Act, 1961. Minimum alternate tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws that have been enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has carry forward of unabsorbed depreciation and tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

Unrecognised deferred tax assets of earlier years are reassessed and recognised to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

Employee Benefits

Short-term employee benefits

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc. are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contribution to a separate entity. The Company makes specified monthly contributions towards Employee's Provident fund and Employee's State Insurance Scheme which are recognised in the Statement of Profit and Loss during the year in which the employee renders the related service.

Defined benefit plans

A defined benefit plan i.e. gratuity, is a post-employment benefit plan other than defined contribution plan. The liability in respect of defined benefit plans and other post-employment benefits is actuarially determined (using Projected Unit Credit Method) at the Balance Sheet date. Actuarial gains/losses are immediately recognised in the Statement of Profit and Loss.

Compensated absences

The employees can carry-forward a portion of the unutilised accrued compensated absences and utilise it in future service periods. The liability in respect of compensated absences is actuarially determined (using Projected Unit Credit Method) at the Balance Sheet date. Actuarial gains/losses are immediately recognised in the Statement of Profit and Loss.

Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when there is a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.
