MANAGEMENT DISCUSSION AND ANALYSIS

Economy Overview

As an NBFC, your Company is crucial and critical asset of overall financial system. Economic indicators such as Fiscal and Current deficit are stressed. However, with the interest rate cycle turning and the Government making an effort to revive stalled projects and some recovery is expected in FY 2014-15. Financial year 2013-14 (FY2014) was a difficult one for India's economy. Indian Economy registered a Growth of 4.5% during 2012-13(FY2013). Thereafter, the trend of first three quarters for previous FY was seen at low levels if comparison is made with previous years. The growth rate for first three quarters was: 4.4% in Q1; 4.8% in Q2; and 4.7% in Q3. The Central Statistical Organization (CSO) has estimated full year growth for FY2014 at 4.9%. The WPI started declining only towards the end of FY2013 with a fall in core Inflation; the CPI, however, continued to remain high on account of food inflation. Further, inflation in FY 2014 was not the only issue that effected the growth rate but slowdown in the US Federal Reserve resulted in depreciation in the value of Rupee. The situation was further exacerbated by high inflation and a very high current account deficit (CAD). Consumer Price Inflation (CPI) fluctuated between 10.39% in April 2013 and 8.31% in March 2014. Such volatility and pressures impacted the monetary policy and made it difficult for Indian economy to give it a stable balance.

In return, The Reserve Bank of India (RBI) responded by tightening monetary policy. Short term interest rates were raised by increasing the marginal standing facility rate by 200 bps and curtailing liquidity. As global and local markets stabilized by Q3, the RBI eased tight liquidity conditions by lowering the MSF rate by 150 bps in three steps. However, policy rates were raised by 75 bps in the second half of FY2014. The government's actions on placing import restrictions on gold also helped the Indian economy. FY2014 was difficult for the banking sector owing to low growth, volatile interest rate environment and high NPAs. However, retail finance continued its strong performance owing to low consumer leverage and large untapped demand.

Your Company focuses its services on 2 major categories: 1. Inter-Corporate Lending (Commercial Lending);and 2. Consumer Lending and Financing.

Business outlook

We expect to maintain our performance in FY2015 and hopes to grow at a rate faster than the growth of bank credit. The approach would be to continue with the growth momentum while balancing risk. As before, it will continue to invest in strengthening risk management practices;

and in maintaining its investment in technology and human resources to consolidate its position as a leading NBFC in India.

RBI's norms and standards

Capital Trade Links fulfils norms and standards laid down by the RBI applicable to Non-Banking Financial companies.

Risk management and portfolio quality

Your Company, being in the business of finance, has to manage various risks. As an NBFC, CTL is exposed to credit risk, liquidity risk and interest rate risk. The Company has invested in people, processes and technology to mitigate risks posed by external environment and by its borrowers. It has in place a strong risk management team and an effective credit operations structure. Its risk management policies continue to review associated risks. It seems that retail investors are not investing in capital market. In today's complex business environment, almost every business decision requires executives and managers to balance risk and reward. Globalization, with increasing integration of markets, newer and more complex products & transactions and an increasingly stringent regulatory framework has exposed organisations to newer risks. As a result, today's operating environment demands a rigorous and integrated approach to risk management. Timely and effective risk management is of prime importance to our continued success. Increased competition and market volatility has enhanced the importance of risk management. The sustainability of the business is derived from the following:

- ❖ Identification of the diverse risks faced by the company.
- ❖ The evolution of appropriate systems and processes to measure and monitor them.
- ❖ Risk management through appropriate mitigation strategies within the policy framework.
- ❖ Monitoring the progress of the implementation of such strategies and subjecting them to periodical audit and review.
- ❖ Reporting these risk mitigation results to the appropriate managerial levels.

The performance of capital market in India has a direct correlation with the prospect of economic growth and political stability. Though the growth projections for FY 2013-14 appear

not satisfactory, there are certain downside risks such as pace and shape of global recovery, effect of withdrawal of fiscal stimulus and hardening of commodity prices. There is lot of opportunities for investment in capital market. Our business performance may also be impacted by increased competition from local and global players operating in India, regulatory changes. With growing presence of players offering advisory service coupled with provision of funds for the clients' needs, we would face competition of unequal proportion. We continuously tackle this situation by providing increasingly superior customized services. While the current year started with a lot of optimism & hope- both globally & in the Indian Market – there have been fears of a second recession since the credit rating of US was downgraded. Global stock markets' barometer of sentiments-have not done that well.

SUBSIDIARY COMPANY

As there are no subsidiaries of the company, investment made in subsidiaries is NIL.

HUMAN RESOURCES

The Company's relations with the employees and people continued to be cordial, which are most valuable resource of your organization.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUENCY

Your Company has an effective system of accounting and administrative controls supported by an internal audit system with proper and adequate system of internal check and controls to ensure safety and proper recording of all assets of the Company and their proper authorized utilization.

As part of the effort to evaluate the effectiveness of the internal control systems, your Company's internal audit department reviews all the control measures on a periodic basis and recommends improvements, wherever appropriate. The internal audit department is manned by highly qualified and experienced personnel and reports directly to the Audit Committee of the Board. The Audit Committee regularly reviews the audit findings as well as an Information Security Assurance Service are also provided by independent external professionals. Based on their recommendations, the Company has implemented a number of control measures both in operational and accounting related areas, apart from security related measures.

Independent Auditors' Report

To

The Members of Capital Trade Links Limited

1. Report on the Financial Statement

We have audited the accompanying financial statements of Capital Trade Links Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss for the year then ended, Cash Flow Statement and a summary of significant accounting policies and other explanatory information.

2. Management's Responsibility for the Financial Statement

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;

- ii) in the case of the Statement of Profit and Loss Account, of the profits for the year ended on that date; and
- iii) in the case of the Cash Flow Statement, of the cash flow for the year ended on that date.

5. Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books
 - c) the Balance Sheet, the Statement of Profit and Loss and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) Except as stated in point no. 5 above, if any, in our opinion, the Balance Sheet, Statement of Profit and Loss and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;

SIGNIFICANT ACCOUNTING POLICIES

A. Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention in accordance with the generally accepted accounting principles in India including Accounting Standards notified by the Government of India / issued by the Institute of Chartered Accountants of India (ICAI), as applicable, and the relevant provisions of the Companies Act, 1956. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

The Company follows the prudential norms for income recognition, asset classification and provisioning as prescribed by Reserve Bank of India (RBI) for preparation of Financial Statement.

B. Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the year. Example of such estimates includes future obligations under employee retirement benefit plans, estimated useful life of fixed assets, warranty on sales, provision for obsolete and slow moving inventory, etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

C. Current-Non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within 12 months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. It is expected to be settled in the company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within 12 months after the reporting date; or

- d. The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of liability that could, at option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.
All other liabilities are classified as non-current.

D. Revenue recognition

a) Income on Loan Transaction

Interest Income is recognised under the Internal Rate of Return method to provide a constant periodic rate of return on net investment outstanding on the Loan contracts. In the case of Non Performing Loans, interest income is recognised upon realisation, as per RBI guidelines. Unrealised interest recognised as income in the previous period is reversed in the month in which the loan is classified as Non Performing.

b) Other Interest Income

Interest income is recognized on time proportion basis considering the amount outstanding and the rate applicable.

c) Provision for Standard/ Non- Performance Assets and Doubtful Debts

The Company Provide an allowance for loan receivables based on the prudential norms issued by the RBI relating to income recognition, assets classification and provisioning for the Non-performing Assets.

In addition the company provided provision for standard assets as required by direction issued by RBI

E. Fixed assets

Tangible fixed assets

Tangible fixed assets are recorded at cost of acquisition less accumulated depreciation and less accumulated impairment loss, if any. Cost is inclusive of inward freight, duties, taxes and incidental expenses related to acquisition and installation expenses incurred to bring the assets to their working condition for intended use. Tangible fixed assets under construction and cost of assets not put to use before the year end, are disclosed as capital work in progress.

Subsequent expenditures related to an item of tangible fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Depreciation on fixed assets is provided under the written down value method at the minimum rates specified as per Schedule XIV of the Companies Act, 1956. In the opinion of the management, the rates of depreciation used represent the estimated economic useful life of fixed assets.

Assets individually costing Rs. 5,000 or less are fully depreciated in the year of the purchase.

Depreciation on additions is being provided on pro rata basis from the date of such additions. Similarly, depreciation on assets sold/disposed off during the year is being provided up to the dates on which such assets are sold/disposed off. Modification or extension to an existing asset, which is of capital nature and which becomes an integral part thereof is depreciated prospectively over the remaining useful life of that asset.

Intangible fixed assets

Intangible assets which are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and/or less accumulated impairment loss, if any. Subsequent expenditure is capitalized only when it increases the future economic benefits from the specific asset to which it relates.

Intangible assets are amortised on written down value method. In view of the management, the rates of amortisation used represent the estimated economic useful life of such assets:

F. Foreign currency transactions

Foreign currency transactions are recorded at the rate of exchange prevailing on the date of the respective transactions. Monetary foreign currency assets and liabilities remaining unsettled at the balance sheet date are translated at the rates of exchange prevailing on that date. Gains/ (losses) arising on account of realisation/ settlement of foreign exchange transactions and on translation of foreign currency assets and liabilities are recognised in the statement of Profit and Loss.

G. Leases

Where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. Operating lease charges are recognised as an expense in the statement of Profit and Loss.

H. Employee benefits

Short term employee benefits

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc., are recognised in the Profit and Loss Account in the period in which the employee renders the related service.

Defined benefit plan

Gratuity is a defined benefit plan. The present value of obligations under such defined benefit plans is determined based on actuarial valuation carried out by an independent actuary at the end of the year using the projected unit credit method. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the Profit and Loss Account.

I. Taxation

Income tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the income tax laws) and deferred tax charge or credit (reflecting the tax effects of timing differences between the accounting income and the taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using tax rates that have been enacted, or substantively enacted, by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future, however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

J. Provisions and contingent liabilities

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

K. Earnings per share

Basic earnings per share are calculated by dividing the net profit/ (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

L. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposit with banks, other short term highly liquid investments with original maturities of three months or less.

22. Special Reserve represents reserve created as per Section 45(IC) of Reserve Bank of India, 1934.

23. Legal and professional fees includes auditor's remuneration:
