The Board of Directors has established a Risk Management Policy to prevent events, situations, or circumstances that could negatively impact the Company's businesses. This policy provides a structured approach to managing uncertainty and integrating risk considerations into decision-making across all business divisions and corporate actions. Key business risks and their mitigation strategies are incorporated into the Annual/Strategic Business Plans and reviewed periodically during Management Reviews.

The Risk Management Committee has not identified any risks that, in their opinion, could threaten the Company's existence. Detailed discussions of relevant risks and concerns are included in the Management Discussion and Analysis Report, which is part of the Annual Report.

26. CORPORATE SOCIAL RESPONSIBILITY

The provision of the Companies Act, 2013 with respect to the Corporate Social Responsibility are applicable now and in this respect the company has framed the CSR Policy.

27. AUDITORS AND AUDITOR'S REPORTS

A. Statutory Auditor

During the year under review, on 6th February, 2024, the Board of Directors, based on the recommendation of the Audit Committee but subject to approval of shareholders to be obtained at the General meeting of the company, recommended the appointment of M/s Raj Gupta and Co. Chartered Accountants (FRN: 000203N) as Statutory Auditors of the Company to fill the casual vacancy caused due to the resignation of M/s A.C. Gupta & Associates (FRN 008079N). M/s A.C. Gupta & Associates, Chartered Accountants, resigned on February 3, 2024, from the designation of Statutory Auditor of the company citing the fact that the validity of their Peer Review Certificate had elapsed on 31.12.2023 and the renewal of Peer Review Certificate was pending. They further stated that, given the uncertain time frame it was unlikely to get renewed before the issue of Limited Review Report for the quarter ended December 2023. The said appointment is pursuant to applicable provisions of the Companies Act 2013 and the SEBI Listing Regulations, 2015. The existing/outgoing Auditors have not raised any concern or issue and there is no reason other than as mentioned in their resignation letter. M/s Raj Gupta and Co. Chartered Accountants shall hold office upto the ensuing annual general meeting of the company.

The statutory auditors have confirmed they are not disqualified from being appointed as auditors of the Company. No Observations / Qualifications / Disclaimers are made by the Statutory Auditors in their Report for the Financial year 2023-24. Therefore, it does not call for any further explanation or comments from the Board under Section 134(3) of the Companies Act, 2013.

The Auditors' Report on the financial statements of the Company for the financial year ending March 31, 2024, is unmodified i.e. it does not contain any qualification, reservation or adverse remark. The Auditors' Report is enclosed with the financial statements forming part of the annual report.

B. Secretarial Auditor

Pursuant to the provisions of Section 204 read with Section 134(3) of the Act and rules made there under, the Board has appointed M/s Atiuttam Singh & Associates, Practising Company Secretary, New Delhi for conducting Secretarial Audit of company for the financial year 2023-24. The Secretarial Audit Report in Form MR-3 for the FY 2023-24, is hereby attached with this Report marked as "Annexure III". Following observations made by Secretarial Auditor-

1. Option to participate Board Meeting through Electronic Mode was not given in Notice of 5th Board Meeting dated 2nd February 2024 as required under para 1.3.4 of Secretarial Standard on meetings of the Board of Directors (SS-1) issued by the Institute of Company Secretaries India (ICSI) as notified by the Central Government under section 118(10) of the Companies Act, 2013 and mandatorily applicable.

The Notice of Board Meeting inadvertently omitted the option to participate electronically. The company will ensure to take steps to prevent such oversights in the future.

- Delay in submission of DNBS 4A return for the first quarter of FY 2023-24 as required to be filed to RBI within 15 days from the end of the quarter.

DNBS 4A was meant to be submitted on the RBI XBRL ORFS portal. However, the company encountered difficulty accessing the return on the portal. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMY remains remarkably resilient, with growth holding steady as inflation returns to target. The journey has been eventful, starting with supply-chain disruptions in the aftermath of the pandemic, a Russian- Ukraine war that triggered a global energy and food crisis, and a considerable surge in inflation, followed by a globally synchronized monetary policy tightening.

Despite many gloomy predictions, the world avoided a recession. The banking system stayed strong, and major emerging market economies didn't face sudden stops. The surge in inflation, though severe and causing a cost-of-living crisis, didn't lead to uncontrolled wage-price spirals. Markets were very positive about the prospect of central banks easing tight monetary policies. Financial conditions improved, equity valuations increased significantly, capital flows to most emerging market economies (excluding China) were strong, and some low-income and frontier economies regained market access.

Monetary tightening in advanced economies is concluding, but real policy interest rates are expected to remain elevated for some time as inflation returns to target only gradually. This will keep the stance of advanced-economy monetary policies restrictive in the near term. The world economy continues to face multiple crises, jeopardizing progress towards the Sustainable Development Goals (SDGs). These challenges underscore the need for global cooperation and concerted efforts towards sustainable and inclusive growth.

CHALLENGES FOR GLOBAL ECONOMY

The economic survey identifies various challenges confronting the global economy:

Israel- Hamas War and rising political tension- Middle East wars of the past, the conflict between Israel and Hamas that broke out this past week has the potential to disrupt the world economy — and even tip it into recession if more countries are drawn in. Ongoing conflicts in Eastern Europe and the Middle East, considered crucial food and energy supply regions, pose substantial threats. The Middle East contributes about 30% of global oil production.

Declining China's Growth- With a projected growth rate of 4.5% this year, China is anticipated to experience its slowest economic expansion since 1990, excluding the COVID-19 period. This deceleration is likely to impact numerous advanced and developing economies that rely heavily on trade with China.

Inflation- Headline inflation has continued to come down in many countries, driven by the decline of food and energy prices in the first half of 2023. However, core inflation – inflation excluding the most volatile components, energy and food– hasn't significantly slowed. It remains well above central banks' targets. A key risk is that inflation could continue to prove more persistent than expected, meaning interest rates need to tighten or remain higher for longer.

INDIAN ECONOMY is a major global economic player with a nominal GDP at current prices estimated at Rs. 296.58 trillion (US\$3.56 trillion) in 2023-24. The country has the third largest population of unicorns in the world, reflecting a vibrant startup ecosystem. The government is committed to renewable energy and aims to produce 40% of energy from non-fossil sources by 2030 and aims to achieve zero emissions by 2070 through the Panchamriti strategy. India ranks third in the Renewable Energy Country Attractiveness Index, indicating a favourable environment for renewable energy investments.

However, there are certain challenges with Indian economy. First, higher interest rates, which are typically employed to control inflation by reducing borrowing and spending, can help ease inflationary pressures. Second, a reduced fiscal stimulus, which means a decrease in government spending or an increase in taxes, can influence inflation dynamics by affecting consumer spending and overall economic activity. Lastly, the normalizing impact of net taxes on demand refers to tax changes that could influence consumer purchasing power and, as a result, inflation trends.

The Interim Budget for 2024-25 allocates a significant amount for capital expenditure, focusing on infrastructure and development projects. This investment is expected to stimulate economic activity and contribute to GDP growth. Tax receipts are estimated to increase, with GST collections crossing significant benchmarks. This increase in tax collections indicates a robust economy.

The fiscal deficit is estimated at 5.1% of GDP in 2024-25, aligning with the goal of reducing it below 4.5% by 2025-26. This reduction in fiscal deficit is a positive sign of fiscal responsibility and economic stability.

In conclusion, while there are challenges ahead, India is well-positioned to maintain strong economic performance in the future. The government's focus on infrastructure development, fiscal responsibility, employment generation, and sustainable energy sources are key factors that will contribute to this growth

FINANCIAL SECTOR

India's financial sector is undergoing significant growth and diversification, comprising a wide range of entities, including commercial banks, insurance companies, non-banking financial companies, cooperatives, pension funds, mutual funds, and other smaller financial entities.

The financial sector in India is predominantly a banking sector, with commercial banks accounting for more than 64% of the total assets held by the financial system. The Government of India and the Reserve Bank of India (RBI) have introduced several reforms to liberalize, regulate, and enhance this industry. These measures aim to facilitate easy access to finance for Micro, Small, and Medium Enterprises (MSMEs).

In the fiscal year 2024, the mutual fund (MF) industry experienced a remarkable surge in new investors, with an increase of 70% compared to the previous year. This significant rise was largely driven by the recovery in the equity market. As a result, 6.8 million unique investors joined the mutual fund market, bringing the total number of MF subscribers to 44.5 million. The industry's assets under management (AUM) saw substantial growth, increasing by 35%, which is the second-highest growth rate recorded in a fiscal year. Additionally, the number of folios reached an unprecedented 147.8 million, reflecting the robust expansion of the industry. Investor enthusiasm was not limited to mutual funds; it extended to other equity investment opportunities, indicating a broader trend of growing participation in the capital markets. Active Systematic Investment Plan (SIP) accounts also saw a significant increase, with net additions doubling from the previous year. Over 82% of these new SIP accounts were dedicated to active equity schemes.

The fiscal year 2024 highlighted a notable shift towards an investment culture driven by market performance, advancing financial literacy, and the ongoing transition from saving to investing in the economy. The recovery in equity market indices such as Nifty 50 and Sensex by over 25%, combined with the introduction of new fund options in popular categories, boosted investor confidence. The adoption of mobile wallets is rapidly rising in India, outpacing traditional payment methods like cash and cards. Global Data forecasts mobile wallet transactions to exceed \$6.39 trillion (Rs. 531.8 trillion) by 2028, growing at a robust compound annual growth rate (CAGR) of 18.3% between 2024 and 2028. This growth is fueled by government initiatives promoting digital payments, particularly through the unified payments interface (UPI), which saw transactions valued at \$2.5 trillion (Rs. 202.8 trillion) in 2023, with a staggering CAGR of 72.1% from 2019 to 2023.

India's financial sector is experiencing a significant transformation, characterized by the expansion and diversification of financial institutions, reforms initiated by the government, and the swift integration of digital payment technologies, notably mobile wallets. This evolution signifies a promising outlook for India's capital markets, showcasing vibrant growth prospects and abundant opportunities for both investors and enterprises.

MARKET SHARE

The Bombay Stock Exchange (BSE) will set up a joint venture with Ebix Inc. to build a robust insurance distribution network in the country. In FY23, \$7.17 billion was raised across 40 initial public offerings (IPOs), and the number of companies listed on the NSE increased from 135 in 1995 to 2,113 by FY23.

The country's private wealth management industry shows immense potential, with India projected to have 16.57 lakh high-net-worth individuals (HNWIs) by 2027, positioning it as the fourth-largest private wealth market globally by 2028. Furthermore, India's insurance market is anticipated to reach

\$250 billion by 2025, offering an opportunity for an additional \$78 billion in life insurance premiums from 2020 to 2030.

Moreover, India witnessed a significant surge in Private Equity/Venture Capital (PE/VC) investments, soaring to US\$ 77 billion in 2021, representing a remarkable 62% increase compared to the previous year. In 2023, the government revamped the credit guarantee scheme. The inflow of INR 9,000 crores into the corpus of the Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) will give MSMEs more access to collateral-free loans.

The National Stock Exchange of India Ltd. (NSE) emerged as the world's largest derivatives exchange in 2020 in terms of the number of contracts traded and was ranked 4th worldwide in cash equities by number of trades in 2020. The Association of Mutual Funds in India (AMFI) is targeting a nearly five-fold growth in AUM to \$1.15 trillion and more than three times growth in investor accounts to 130 million by 2025.

According to Goldman Sachs, investors have been pouring money into India's stock market, which is likely to reach over \$5 trillion, surpassing the UK, and become the fifth-largest stock market worldwide by 2024.

There have been several growth drivers for the sustainable growth of financial services in India in future:

Growing Demand:

- Increasing income levels are fuelling the need for financial services across various income groups.
- The investment potential in the Indian insurance industry is projected to reach US\$ 1 trillion by 2025.
- With over 2,100 FinTech companies currently operational, India is poised to emerge as one of the largest digital markets due to the rapid expansion of mobile and internet usage.

Growth Penetration

- Access to credit, insurance, and investment opportunities is on the rise in rural areas.
- High Net Worth Individual (HNWI) involvement is increasing in wealth management.
- Despite mutual fund penetration currently standing at 5-6%, there remains substantial room for growth, indicating latent opportunities.

NBFC Sector has emerged as a vital source of finance for a diverse range of individuals and businesses, including Small and Medium Enterprises (SMEs) and economically unserved and underserved people. NBFCs have excelled in meeting the varied needs of borrowers with remarkable speed and efficiency, leveraging their extensive geographical reach, understanding of diverse financial requirements, and rapid turnaround times. By supporting the growth of millions of MSMEs and facilitating independent employment opportunities, nonbank money lenders have played a pivotal role in fostering financial inclusion.

Non-Banking Financial Companies (NBFCs) are an integral part of Indian financial system. They are lender of first resort for the large group of niche segments which remains underserved by the mainstream banking sector such as financing of second-hand vehicles, construction equipment, working capital financing, customized loans to micro and small industries, etc. Moreover, they also provide basic financial services such as micro-insurance, loans, savings instruments etc. to the poor and marginalized sections which do not have access to mainstream banking. Apart from this, NBFCs also broaden the capital base of the economy by providing finance to the infrastructure projects and invest heavily in the real estate segment through Infrastructure Finance Company (NBFC-IFC), Infrastructure Debt Fund (NBFC-IDF) and Housing Finance Company (HFC).

A significant catalyst for the expansion of the NBFC sector has been the escalating demand for credit from MSMEs, who often face challenges in accessing loans from traditional banks due to stringent eligibility criteria. In response, digital lenders offering alternative financial solutions have emerged, playing a crucial role in driving the growth of the NBFC sector. This growth has been accompanied by the entry of numerous players with diverse business models, signaling a transformation in the Indian financial services landscape. The increasing adoption of neo-banking, digital authentication, the proliferation of UPI and mobile phone usage, and the spread of mobile internet have led to the modularization of financial services, particularly in the realm of credit.

KEY REASONS FOR GROWTH

- **Deep demographic and addressable market understanding:** With their operations in the unorganized and underdeveloped segments of the economy, NBFCs have created a niche for themselves by understanding what customers want from them and guaranteeing last-mile delivery of goods and services.
- **Tailored product offerings:** NBFCs have adapted their product offering to meet the specific characteristics of a customer group and are focused on meeting appropriate needs by carefully analysing this target segment and customizing pricing models.
- **Wider and effective reach:** NBFCs are now reaching out to Tier 2, Tier 3 and Tier 4 markets, distributing the loan across several customer touchpoints. In addition, they are building a connected channel experience that provides an omnichannel, seamless experience of sales and service 24 hours a day, seven days a week.
- **Co-lending:** RBI, in November 2020, issued co-lending norms that enable banks and NBFCs to collaborate for priority sector lending (PSL).

Overall, between FY2023 and FY2025, research shows NBFC credit will increase at a **CAGR of 13-15per cent**.

The Retail AUM of NBFCs (NBFC-Retail; excluding HFCs) continued the growth momentum in Q2 FY2024, expanding 29% YoY. ICRA expects the NBFC-Retail segment to grow by 21-23% in FY2024, moderately lower than the growth witnessed in H1 FY2024, given the base effect of the expansion seen in H2 of FY2023. The growth is expected to moderate further in FY2025 on the back of a tighter market liquidity expectation and large base created from the strong growths witnessed in FY2023-FY2024.

Regulatory developments and tighter liquidity shall push up the weighted average cost of funds (CoF) by 30-50 basis points (bps) in H2 FY2024 and further 20-40 bps in FY2025. Moreover, as most NBFCs have a fixed rate loan book, they are expected to face further margin pressure in FY2025. This, along with the bottoming out of credit costs, would impact the net profitability, which would moderate by 20-40 bps in FY2025 vis-à-vis FY2024.

SOURCES OF BORROWINGS

In Fiscal 2023, there was a notable surge in NBFCs' borrowings from banks, leading to a significant uptick in their share of total funding to 36%, up from 29% at the conclusion of Fiscal 2022. Over the past decade, the proportion of bank lending to NBFCs has nearly doubled. However, it is anticipated that NBFCs will continue to rely heavily on funding from banks, as well as from other NBFCs and small finance banks, throughout Fiscal 2024 and Fiscal 2025.

Emerging sources of fund in addition to traditional sources are as following;

- **Green bonds and sustainable funding:** NBFCs inclined towards environmental sustainability can issue green bonds, attracting investors keen on making positive social and environmental impacts.
- **Co-lending:** Co-lending, also known as co-origination, is gaining prominence as a collaborative lending model where multiple financial entities jointly extend loans to borrowers, sharing risks and rewards based on pre-agreed terms. This model, typically involving banks and NBFCs, offers increased liquidity and profitability opportunities if utilized effectively.
- **Securitization and asset reconstruction:** Securitization and asset reconstruction are increasingly adopted strategies by NBFCs, involving the sale of loan portfolios to investors and collaboration with Asset Reconstruction Companies (ARCs) to optimize balance sheets and manage risk.

REGULATIONS

- **Capital adequacy requirements:** Regulatory directives regarding capital adequacy requirements entail an increase in risk weights for consumer lending from 100 percent to 125 percent. Consequently, NBFCs with a higher proportion of such loans in their portfolio will be impacted. Maintaining a balanced mix of secured and unsecured assets becomes crucial to meet capital adequacy parameters effectively.
- **Bank borrowing for NBFCs with higher rating:** This signifies that banks will be required to maintain higher capital on loans extended to such NBFCs, potentially influencing the funding profile of these entities. Additionally, the cost of borrowing funds from banks may escalate as banks could adjust interest rates to compensate for their elevated cost of capital.

COST OF FUNDS

During the pandemic period, NBFCs became cautious in lending to preserve the asset quality, which restricted AUM growth. The restricted demand drove AUM growth, especially across higher-yielding segments, which impacted profitability positively. The low-interest environment translated into lower cost of funds, resulting in higher spreads, which further impacted profitability positively. The microfinance segment also witnessed equity infusion from private equity and Alternative Investment Funds (AIFs). This in turn has helped the NBFCs to increase their spreads and decrease their debt levels in F.Y.2023 which is expected to remain consistent for the next 2 years with a marginal increase in the cost of funds only due to the rate hikes.

NBFCs are gaining market share from banks in small business loans, here is why

- **Quick Disbursal of Funds:** Small businesses often operate with tight cash flow and may need capital quickly to seize opportunities or address emergencies. NBFCs' streamlined processes ensure faster loan approvals and disbursements, allowing businesses to act swiftly and not miss out on crucial moments.
- **Competitive Interest Rates & Lower Fees:** For small businesses, keeping costs down is essential. NBFCs' competitive interest rates and lower processing fees compared to banks make borrowing more affordable. This allows businesses to invest a higher proportion of their capital back into growth initiatives.
- **Flexible Eligibility Criteria:** Many small businesses, especially startups or those in their early stages, may not meet the strict credit score or business history requirements of traditional banks. NBFCs, with their more relaxed approach, open the door for these businesses to access much-needed funding and fuel their growth.
- **Pre-Approved Loan Limits:** Pre-approved loan limits from NBFCs provide small businesses with financial flexibility. Businesses can access funds as needed, managing their cash flow efficiently and keeping loan repayments manageable. This also offers a safety net for unexpected expenses.

COMPANY OUTLOOK

Capital Trade Links Limited (CTL) is a RBI-licensed and one of the top listed non deposit accepting NBFC established in 1984 with the mission of extending inclusive financial services to individuals and organizations across a diverse spectrum of society. Since 2001, CTL has been dedicated for more than two decades to realizing the aspirations of people belonging to low-income brackets, emerging small entrepreneurs and corporate groups. We leverage technology to offer tailored financial assistance in the form of Personal Loans, Business Loans, Corporate Bridge Loans and E-Vehicle Loans.

Headquartered in Delhi, CTL operates in five states across the country committed to fostering financial inclusion and empowering a wide range of stakeholders. The company has established its own standards and norms for evaluating different needs of its clients and always provides a suitable payment option to its customers.

CTL has professionally qualified board of directors and key managerial persons qualified as Chartered Accountants, Company Secretary, Advocates having vast experience in the field of capital market, corporate governance, financial management, compliance management and banking. Being a professionally managed company enables CTL to have a strong corporate governance foundation always.

Our aim is to align with the government's vision of supporting renewable energy sources by extensively financing electric vehicles, promoting an environmentally friendly and sustainable mode of transport.

KEY STRENGTHS

The company operates with the following key strengths:

Robust Technology: The use of technology in conducting operations enhances efforts of financial inclusion by placing transparency, accessibility and technology at the heart of in this endeavor. The technology is mainly based on:

2. **Digio:** The use of digio in bank statement and KYC verification ensures credit availability to right borrower and maintains quality of assets. This enhances efficiency of the borrower verification process.
3. **Payment:** We provide multiple secure payment options to borrowers to suit their convenience which includes dynamic QR code for specific amount payment, Payment Aggregators, NACH etc.

6. **Customer Identification:** We use geographical tagging application to ensure identification of borrower location on real time basis, which in turn helps us I securely expanding our reach to rural area borrowers and suitably serve their needs.

KEY WEAKNESS

Technology Adoption: With the proliferation of digital technologies, Company leverages mobile banking, digital payments, and online application processes to reach remote rural areas cost-effectively and efficiently.

OPPORTUNITIES

Unmet Demand: There is often a considerable unmet demand for credit in rural areas due to the limited presence of traditional banks. NBFCs can fill this gap by offering customized loan products tailored to the needs of MSMEs in these regions.

THREATS:

Economic Downturns: Economic downturns pose a significant threat to NBFCs that cater to corporates. During periods of economic slowdown, business often experience reduced cash flow and revenue, which can severely impact their ability to repay loans. This leads to higher default rates, affecting the financial health of NBFCs. Additionally, certain sectors are more vulnerable to market fluctuations, resulting in inconsistent repayment patterns and increased credit risk for lenders.

Regulatory Changes: Regulatory changes present another critical threat to NBFCs. New compliance requirements can increase operational costs and complicate business processes, thereby reducing profitability. The regulatory environment for financial institutions is constantly evolving, necessitating quick adaptation from NBFCs. Sudden shifts in government policies or financial regulations can create uncertainty, making strategic planning and consistent operations challenging.

RISK MANAGEMENT

The company has a robust risk management framework in place to identify, which measures, monitors and manages the critical risks. While risk is inherent to every institution, it assumes greater significance in the context of Micro Credit due to the very nature of the business with its absence of collaterals quality and the vulnerable, financially excluded customer segment it serves.

Risks may be avoided through pre-emptive action and hence the need to identify the risks and put in place various mitigation mechanisms. CTL has identified the following potential risks that could have an adverse impact on the company:

Credit Risk

Credit Risk for CTL is the risk of loss of interest income and the Company's inability to recover the principal amount of the loan disbursed to its customers.

This risk can result from Information asymmetry and excessive reliance on Credit Bureau check, not backed by soft information or market intelligence on a territory or group of borrowers, leading to adverse selection of borrowers.

Mitigation

Credit Bureau Check - A credit check is done for every customer through an automated system-to-system integration with the Credit Bureau. As part of this check, the parameters like default history, multiple borrowings, Indebtedness and income check are looked at to verify a customer's credit-worthiness and also ensure that they are not overburdened. This mitigates the risk of customer defaults.

Multi-Step Customer Verification CTL has established separate customer relationship (acquisition and maintenance) and customer evaluation (credit) personnel in order to ensure the quality of customers acquired as well as eliminate coerced borrowing practices which may lead to genuine customers becoming delinquent.

Operational Risk

Operational Risk is the risk of possible losses, resulting from inadequate or failed internal processes, people and systems or from external events, which includes legal risks but excludes strategic and reputation risk. The risk can emanate from Procedural lapses arising due to higher volumes of small-ticket transactions.

Mitigation

CTL has an independent Internal Audit department which carries out surprise checks on field branches and rates them on pre-defined compliance parameters, identifies gaps in process compliance and rolls out initiatives to correct loopholes. This is done primarily to Ensure that the designed processes are being followed on the field – including interaction with the customers during various stages of the relationship lifecycle.

Portfolio Concentration Risk

Portfolio Concentration Risk is the risk to the company due to a very high credit exposure to a particular business segment, industry, geography, location, etc. though in the context of micro finance, it pertains predominantly to geographical concentration.

Mitigation

CTL intends to maintain a diversified exposure in advances across various states to mitigate the risks that could arise due to political or other factors within a particular state. With this in mind, Capital Trust has steadily diversified its presence from Delhi to 4-5 states.

Compliance Risk

Capital Trade is present in an industry where the Company has to ensure compliance with regulatory and statutory requirements. Non-Compliance can result in stringent actions and penalties from the Regulator and/or Statutory Authorities and which also poses a risk to CTL reputation.

Mitigation

The company has implemented a Compliance Management with in-built work-flows to track, update and monitor compliances. The company has strong compliance team who monitors statutory compliances.

Reputation Risk

Reputation risk is the risk to earnings and capital arising from adverse perception of the image or the company, on the part of customers, counter parties' shareholders, investors and regulators. It refers to the potential adverse effects, which can arise from the company's reputation getting tarnished due to factors such as unethical practices, regulatory actions, customer dissatisfaction and complaints leading to negative publicity.

Mitigation

We have in place Strict Adherence to Fair Practices Code, Grievance, Redressal Mechanism, Customer Connect and Delinquency Management. The Company does not resort to any coercive recovery practices and has an approved delinquency management policy including restructuring of loans where necessary.

Strategic Risk

It is the risk to earnings and capital arising from lack of responsiveness to changes in the business environment and/or adverse business decisions, besides adoption of wrong strategies and choices.

Mitigation

This is being addressed and the risk mitigated to a great extent, by referring matters of strategic importance to the Management, consisting of members with diversified experience in the respective fields, for intense deliberations, so as to derive the benefit of collective wisdom

INTERNAL CONTROL SYSTEM is crucial for a (NBFC) to ensure operational efficiency, financial accuracy, and regulatory compliance. It involves a comprehensive framework of policies, procedures, and practices designed to safeguard assets, prevent fraud, and ensure the accuracy and reliability of financial reporting. By implementing robust internal controls, an NBFC can mitigate risks, maintain transparency, and uphold stakeholder trust, ultimately contributing to its long-term stability and success.

Independent Auditor's Report

To the Members of Capital Trade Links Limited Report on audit of the standalone financial statements

Opinion

We have audited the accompanying standalone financial statements of Capital Trade Links Limited ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matters:

The financial statements for the year ended March 31, 2023, were audited by another auditor who expressed an unmodified opinion on the financial statements.

The limited review of first 2 quarters i.e. June and September 2023 has been done by other auditor and subsequent quarters limited review has been done by us.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures but does not include the standalone financial statements and our report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of The Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order 2020 (the Order), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate

and according to the information and explanations given to us, we give in Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Changes in Equity and the Standalone Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act read with (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure- B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended. In our opinion and to the best of our information and according to the explanations given to us, we report that the managerial Remuneration for the year ended 31st March, 2024 has been paid/ provided to its directors in accordance with the provisions of section 197 and schedule V to the act.
 - h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company does not have any pending litigation which would impact its financial position.
 - b. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any and to the extent ascertainable, on long- term contracts including derivative contracts; and
 - c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - d. The management has represented that, to the best of its knowledge and believe other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity (ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- e. The management has represented that, to the best of its knowledge and belief, as disclosed in the note 48 to the Standalone Financial Statement, no funds have been received by the Company from any person(s) or entity (ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- f. Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement; and
- g. Since the Company has not declared or paid any dividend during the year, accordingly, commenting on whether dividend declared or paid is in accordance with Section 123 of the Companies Act, 2013 is not applicable.
- h. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such accounting software which has a feature of audit trail, with effect from the financial year beginning on 1st April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Notes to the financial statements

1 General Information

Capital Trade Link Limited is a Non-Banking Finance Company (“NBFC”), holding a Certificate of Registration from the Reserve Bank of India (“RBI”) dated 19/11/2001, domiciled in India with CIN L51909DL1984PLC019622, and was incorporated on 19/12/1984.

2 Summary of significant accounting policies

2.1 Statement of compliance

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015. The Company has adopted Ind AS from April 1, 2019 with effective transition date as April 1, 2018. These financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (the “Act”). The transition was carried out from Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

2.2 Presentation of financial statements

The Balance Sheet, Statement of Profit and Loss and Statement of changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Companies Act, 2013 (“the Act”). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS. Amounts in the financial statements are presented in Indian Rupees.

2.3 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the time of entering into the transaction.

Measurement of fair values:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purposes for certain items in these financial statements is determined considering following methods:

Items	Measurement Basis
Certain financial assets and liabilities (including derivatives instruments)	Fair value
Net defined benefit (asset)/liability	Fair value of planned assets less present value of defined benefit obligations
Property plant and equipment	Value in use under Ind AS 36

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- a) Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date
- b) Level 2: inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- c) Level 3: inputs are unobservable inputs for the valuation of assets or liabilities that the Company can access at measurement date.

2.4 Use of estimates and judgment

The preparation of financial statements requires the management of the Company to make judgments, assumptions and estimates that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenses for the reporting period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the financial statements have been disclosed as applicable in the respective notes to accounts. Accounting estimates could change from period to period. Future results could differ from these estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Judgments:

Information about judgments made in applying accounting policies that have a most significant effect on the amount recognized in the consolidated financial statements is included following notes:

Classification of financial assets: assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

Assumptions and estimation uncertainties :

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending March 31, 2024 is included in the following notes:

Note 21 – impairment of financial instruments: assessment of whether credit risk on the financial asset has increased/ (Decreased) significantly since initial recognition and incorporation of forward-looking information in the measurement of ECL

Note 21 – determination of the fair value of financial instruments with significant unobservable inputs.

Notes 14– recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources

Note 21 – impairment of financial instruments: key assumptions used in estimating recoverable cash flows.

Note 9- impairment test of non-financial assets: key assumption underlying recoverable amounts

Note 9- useful life of property, plant, equipment and intangibles

2.5 Interest

Interest income are recognized using the Flat/Reducing Interest rate method or as per the agreement Rate of Interest on segment are as follows: Personal Loan: 12% to 36% or as mentioned in the agreement Business Loan: 9% to 24% or as mentioned in the agreement Commercial Vehicle Loan: 17% to 36% Consumer Loan: 20% to 36%

2.6 Financial Instruments

Financial assets and financial liabilities are recognized in the Company's balance sheet on settlement date when the Company becomes a party to the contractual provisions of the instrument. Recognized financial assets and financial liabilities are initially measured at fair value. Transaction costs and revenues that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs and revenues directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in the Statement of Profit or Loss.

If the transaction price differs from fair value at initial recognition, the Company will account for such difference as follows: a) if fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets, then the difference is recognized in profit or loss on initial recognition (i.e. day 1 profit or loss); b) in all other cases, the fair value will be adjusted to bring it in line with the transaction price (i.e. day 1 profit or loss will be deferred by including it in the initial carrying amount of the asset or liability). After initial recognition, the deferred gain or loss will be released to profit or loss on a rational basis, only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

a) Financial assets classification

On initial recognition, depending on the Company's business model for managing the financial assets and its contractual cash flow characteristics, a financial asset is classified as measured at;

- 1) amortized cost;
- 2) fair value through other comprehensive income (FVTOCI); or
- 3) fair value through profit and loss (FVTPL).

Initial recognition and measurement

Financial asset is recognized on trade date initially at cost of acquisition net of transaction cost and income that is attributable to the acquisition of the financial asset. Cost equates the fair value on acquisition. Financial asset measured at amortized cost and Financial measured at fair value through other comprehensive income is presented at gross carrying value in the Financial statements. Unamortized transaction cost and incomes and impairment allowance on Financial asset is shown separately under the heading "Other non-financial asset", "Other non-financial liability" and "Provisions" respectively.

Impairment of Financial Asset

Impairment approach

The Company is required to recognize expected credit losses (ECLs) based on forward-looking information for all financial assets at Amortized cost, lease receivables, debt financial assets at fair value through other comprehensive income, loan commitments and financial guarantee contracts. No impairment loss is applicable on equity investments. At the reporting date, an allowance (or provision for loan commitments and financial guarantees) is required for the 12 month ECLs. If the credit risk has significantly increased since initial recognition (Stage 1), an allowance (or provision) should be recognized for the lifetime ECLs for financial instruments for which the credit risk has increased significantly since initial recognition (Stage 2) or which are credit impaired (Stage 3). The measurement of ECL is calculated using three main components: (i) probability of default (PD) (ii) loss given default (LGD) and (iii) the exposure at default (EAD). The 12 month ECL is calculated by multiplying the 12 month PD, LGD and the EAD. The 12 month and lifetime PDs represent the PD occurring over the next 12 months and the remaining maturity of the instrument respectively. The EAD represents the expected balance at default, taking into account the repayment of principal and interest from the balance sheet date to the default event together with any expected drawdown's of committed facilities. The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realized and the time value of money. . The Company applies a three-stage approach to measure ECL on financial assets accounted for at amortized cost and FVOCI. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

1. Stage 1:

12-months ECL For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognized. Exposures with days past due (DPD) less than or equal to 29 days are classified as stage 1. The Company has identified zero bucket and bucket with DPD less than or equal to 29 days as two separate buckets.

2. Stage 2:

Lifetime ECL – not credit impaired For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognized. Exposures with DPD equal to 30 days but less than or equal to 89 days are classified as stage 2. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial asset since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Company has identified cases with DPD equal to or more than 30 days and less than or equal to 59 days and cases with DPD equal to or more than 60 days and less than or equal to 89 days as two separate buckets

3. Stage 3:

Lifetime ECL – credit impaired Financial asset is assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial asset that have become credit impaired, a lifetime ECL is recognized on principal outstanding as at period end. Exposures with DPD equal to or more than 90 days are classified as stage 3. A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. ECL is recognized on EAD as at period end. If the terms of a financial asset are renegotiated or modified due to financial difficulties of the borrower, then such asset is moved to stage 3, lifetime ECL under stage 3 on the outstanding amount is applied.

The Company assesses when a significant increase in credit risk has occurred based on quantitative and qualitative assessments. Exposures are considered to have resulted in a significant increase in credit risk and are moved to Stage 2 when: 1. Quantitative test: Accounts that are 30 calendar days or more past due move to Stage 2 automatically. Accounts that are 90 calendar days or more past due move to Stage 3 automatically. 2. Qualitative test: Accounts that meet the portfolio's 'high risk' criteria and are subject to closer credit monitoring. High risk customers may not be in arrears but either through an event or an observed behavior exhibit credit distress. 3. Reversal in Stages: Exposures will move back to Stage 2 or Stage 1 respectively, once they no longer meet the quantitative criteria set out above. For exposures classified using the qualitative test, when they no longer meet the criteria for a significant increase in credit risk and when any cure criteria used for credit risk management are met.

The definition of default for the purpose of determining ECLs has been aligned to the Reserve Bank of India definition of default, which considers indicators that the debtor is unlikely to pay and is no later than when the exposure is more than 90 days past due. The Company continues to incrementally provide for the asset post initial recognition in Stage 3, based on its estimate of the recovery.

In line with the above policy, the Company has thus fully provided for/ written off the entire receivables in the current financial year as per table below:

Product	Overdue criteria
Commercial Vehicle, Equipment	12 Month
Personal Loan	12 Month
Business Loan	12 Month
Consumer Loan	12 Month
E- Rickshaw	06 Month

The measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. The measurement of ECL involves increased complexity and judgment, including estimation of PDs, LGD, a range of unbiased future economic scenarios, estimation of expected lives, and estimation of EAD and assessing significant increases in credit risk.

Presentation of ECL allowance for financial asset:

Type of Financial asset	Disclosure
Financial asset measured at amortized cost	shown separately under the head "provisions" and not as a deduction from the gross carrying amount of the assets
Financial assets measured at FVTOCI	
Loan commitments and financial guarantee contracts	shown separately under the head "provisions"

Where a financial instrument includes both a drawn and an undrawn component and the Company cannot identify the ECL on the loan commitment separately from those on the drawn component, the Company presents a combined loss allowance for both components under "provisions"

2.7 Financial liability, Equity and Compound Financial Instruments

"Financial liabilities and equity

Debt and equity instruments that are issued are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Financial Liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company or a contract that will or may be settled in the Company's own equity instruments and is a non-derivative contract for which the Company is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Company's own equity instruments.

Classification

The Company classifies its financial liability as "Financial liability at amortized cost" except for financial liability at fair value through profit and loss (FVTPL).

Initial recognition and measurement

Financial liability is recognized initially at cost of acquisition net of transaction costs and incomes that is attributable to the acquisition of the financial liability. Cost equates the fair value on acquisition. Company may irrevocably designate a financial liability that meet the amortized cost as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch (referred to as the fair value option).

De-recognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss

Equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

No gain/loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments"

Cash, Cash equivalents and bank balances

Cash, Cash equivalents and bank balances include fixed deposits, margin money deposits, and earmarked balances with banks are carried at amortized cost. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

2.8 Property, plant and equipment

a. Tangible

Tangible property, plant and equipment (PPE) acquired by the Company are reported at acquisition cost less accumulated depreciation and accumulated impairment losses, if any. The acquisition cost includes any cost attributable for bringing asset to its working condition net of tax/duty credits availed, which comprises of purchase consideration, other directly attributable costs of bringing the assets to their working condition for their intended use. PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

b. Capital work-in-progress PPE not ready for the intended use on the date of the Balance Sheet are disclosed as “capital work-in-progress” and carried at cost, comprising direct cost, related incidental expenses and attributable interest.

c. Intangible

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortization and cumulative impairment. Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalized as a part of the cost of the intangible assets. Expenses on software support and maintenance are charged to the Statement of Profit and Loss during the year in which such costs are incurred.

d. Intangible assets under development

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as “Intangible assets under development”.

e. Depreciation and Amortization

Depreciable amount for tangible property, plant and equipment is the cost of an asset, or other amount substituted for cost, less its estimated residual value. The residual value of each asset given on Operating lease is determined at the time of recording of the lease asset. If the residual value of the Operating lease asset is higher than 5%, the Company has a justification in place for considering the same. Depreciation on tangible property, plant and equipment deployed for own use has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of Buildings, Computer Equipment networking assets, electrical installation and equipment and Vehicles, in whose case the life of the assets has been assessed based on the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, etc. Depreciation on tangible property, plant and equipment deployed on operating lease has been provided on the straight-line method over the primary lease period of the asset. Depreciation method is reviewed at each financial year end to reflect expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end with the effect of any change in the estimates of useful life/residual value is accounted on prospective basis. Depreciation for additions to/deductions from, owned assets is calculated pro rata to the remaining period of use. Depreciation charge for impaired assets is adjusted in future periods in such a manner that the revised carrying amount of the asset is allocated over its remaining useful life. All capital assets with individual value less than Rs. 5,000 are depreciated fully in the year in which they are purchased.

Purchased software / licenses are amortized over the estimated useful life during which the benefits are expected to accrue, while Goodwill if any is tested for impairment at each Balance Sheet date. The method of amortization and useful life are reviewed at the end of each accounting year with the effect of any changes in the estimate being accounted for on a prospective basis. Amortization on impaired assets is provided by adjusting the amortization charge in the remaining periods so as to allocate the asset’s revised carrying amount over its remaining useful life.

Estimated useful life considered by the Company are:

Assets	Estimated useful life
Furniture and Fixtures	10 Years
Office Equipment	5 Years
Buildings	60 Years
Plant & Machinery	10 Years
Computers such as, desktops, laptops, etc.	3 Years

2.9 Employee Benefits

Defined Employee benefits include provident fund, superannuation fund, employee state insurance scheme, Defined contribution benefits includes gratuity fund, compensated absences, long service awards and post-employment medical benefits.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the year in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the balance sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long term service awards are recognized as a liability at the present value of the defined benefit obligation as at the balance sheet date.

2.10 Securities premium account

The Company records premium on account of 1. On issuance of new equity shares; The issue expenses of securities which qualify as equity instruments are written off against securities premium account.

2.11 Operating Segments

The Company's main business is financing by way of loans for Commercial Vehicle Loan, Personal Loan, Consumer and Equipment Loan and Business Loan and Trading in India. The Company's operating segments consist of "Financing Activity only in lending and borrowing.

This in the context of Ind AS 108 – operating segments reporting are considered to constitute reportable segment. Operating segment disclosures are consistent with the information reviewed by the CFO. An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the company's other components, and for which discrete financial information is available. Accordingly all operating segment's operating results of the Company are reviewed regularly by the Board of Directors to make decisions about resources to be allocated to the segments and assess their performance. Revenue and expense directly attributable to segments are reported under each operating segment. Expenses not directly identifiable to each of the segments have been allocated to each segment on the basis of associated revenues of each segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses. Assets and liabilities that are directly attributable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable.

2.12 Earnings per share

Basic earnings per share has been computed by dividing net income by the weighted average number of shares outstanding during the year. Partly paid up shares are included as fully paid equivalents according to the fraction paid up. Diluted earnings per share has been computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive

2.13 Taxation

Income Tax

Income tax expense comprises current and deferred taxes. Income tax expense is recognized in the Statement of Profit and Loss except when they relate to items that are recognized outside profit or loss (whether in other comprehensive income or directly in equity), in which case tax is also recognized outside profit or loss.

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax law) enacted or substantively enacted by the reporting date. Current tax asset and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

Deferred Tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Such deferred tax assets and liabilities are computed separately for each taxable entity. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized. Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

2.14 Goods and Services Input Tax Credit

Goods and Services tax input credit is accounted for in the books in the period in which the supply of goods or service received is accounted and when there is no uncertainty in availing/utilizing the credits.

2.15 Provisions, contingent liabilities and contingent assets

Provisions are recognized only when:

- (i) an entity has a present obligation (legal or constructive) as a result of a past event; and
- (ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- (iii) a reliable estimate can be made of the amount of the obligation

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

(i) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and

(ii) a present obligation arising from past events, when no reliable estimate is possible. Contingent assets are disclosed where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date. Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognized and measured as a provision.

Contingent assets are not recognized in the financial statements.

2.16 Write off

The gross carrying amount of a financial asset is written-off (either partially or in full) to the extent that there is no reasonable expectation of recovering the asset in its entirety or a portion thereof. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

2.17 Leases

The Company has adopted Ind-AS 116 - Leases and applied it to all lease contracts entered. Based on the same and as permitted under the specific transitional provisions in the standard, the Company is not required to restate the comparative figures.

All leases are accounted for by recognizing a right-of-use asset and a lease liability except for:

- Leases of low value assets; and
- Leases with a duration of 12 months or less

The following policies applied-

Lease liabilities are measured at the present value of the contractual payments due to the lessor over the lease term, with the discount rate determined by reference to the rate inherent in the lease unless (as is typically the case) this is not readily determinable, in which case the Company's incremental borrowing rate on commencement of the lease is used. Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments are expensed in the period to which they relate.

Right-of-use assets are initially measured at the amount of the lease liability, reduced for any lease incentives received, and increased for:

- initial direct costs incurred; and
- the amount of any provision recognized where the Company IS contractually required to dismantle.

Subsequent to initial measurement lease liabilities increase as a result of interest charged at a constant rate on the balance outstanding and are reduced for lease payments made. Right-of-use assets are amortized on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset if, rarely, this is judged to be shorter than the lease term.

2.18 Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of: (i.) changes during the period in operating receivables and payables transactions of a non-cash nature; (ii.) non-cash items such as depreciation, provisions, deferred taxes, unrealized foreign currency gains and losses, and undistributed profits of associates and joint ventures; and (iii.) all other items for which the cash effects are investing or financing cash flows. Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

Liquidity Coverage Ratio (LCR)= HQLA/ Total net cash outflows over the next 30 calendar Data must be presented as simple averages of daily observations with effect from the financial year ending March 31, 2023

Qualitative Information

The Company has implemented the guidelines on Liquidity Risk Management Framework prescribed by the Reserve Bank of India requiring maintenance of Liquidity Coverage Ratio (LCR), which aim to ensure that an NBFC maintains an adequate level of unencumbered HQLAs that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario LCR = Stock of High-Quality Liquid Assets (HQLAs)/Total Net Cash Outflows over the next 30 calendar days HQLAs comprise of Cash*, Investment in Central and State Government Securities, and highly-rated Corporate Bonds and Commercial papers, including those of Public Sector Enterprises, as adjusted after assigning the haircuts as prescribed by RBI.

* Cash would mean cash on hand and demand deposits with Scheduled Commercial Banks. Total net cash outflows are arrived after taking into consideration total expected cash outflows minus total expected cash inflows for the subsequent 30 calendar days. As prescribed by RBI, total net cash outflows over the next 30 days = Stressed Outflows - [Min (stressed inflows; 75% of stressed outflows)]. Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities and off-balance sheet commitments by 115% (15% being the rate at which they are expected to run off further or be drawn down). Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow).
